WHAT: The New Jersey Meadowlands Commission (NJMC) and the New Jersey Technology Council are hosting a Sustainable Business & Technology Seminar to highlight how companies can green their operations. The event will include 40 exhibitors, guest speakers and several breakout sessions and workgroup discussions.

The NJMC has been a leader in promoting sustainability and economic growth through its renewable energy and green building initiatives. The Commission's award-winning classroom building – which will host the breakout sessions – is a fully green building that includes solar panels and other energy-efficient features. The Commission is working on a plan to install the state's largest solar power facility on a closed landfill, offers financial incentives to Meadowlands District businesses and developers who build green and is helping local companies reduce their energy costs through its Meadowlands Challenge program.

WHEN: Tuesday, June 16
1 p.m. to 5:30 p.m.

WHERE: Meadowlands Environment Center
New Jersey Meadowlands Commission
Two DeKorte Park Plaza
Lyndhurst, NJ
