Statement on Confirmation of Lisa Jackson as EPA Administrator

LYNDHURST, N.J. – New Jersey Meadowlands Commission Executive Director Robert Ceberio issued the following statement regarding the U.S. Senate’s confirmation of Lisa P. Jackson as the next administrator of the U.S. Environmental Protection Agency (EPA):

“The Senate has made an outstanding decision in confirming Lisa Jackson as the next EPA Administrator. Lisa is a vigorous advocate for the environment and a consensus-builder who has the unique ability to bring diverse interests together for the public and environmental good.

“While we will miss Lisa’s guidance in New Jersey, it is reassuring to know that the entire country will now benefit from her leadership.”
