ADDENDUM #12

REQUEST FOR PROPOSAL: Development, Installation, and Operation of a Solar Power Facility on NJMC Landfill Property (“RFP”)

To All Interested Parties:

PLEASE BE ADVISED that the New Jersey Meadowlands Commission (“NJMC”) hereby extends the final Proposal due date for this Project. All Proposals and associated documentation must be received by the NJMC no later than 3:00 p.m. on Thursday, November 5, 2009.

In advance of that date, the NJMC, via an addendum, intends to provide firm terms for an arrangement between an adjacent property owner and the Selected Firm for the purchase and sale of electricity. This arrangement shall take the form of a Power Purchase Agreement, under which the Selected Firm shall be entitled to credits and any other environmental attributes derived from the generation of solar energy.

The addendum will provide final terms including length of agreement, price of electricity, and past electricity usage data for the property owner’s facility. The purpose of this extension and the forthcoming addendum is to provide Interested Parties with information necessary to assess the value of this arrangement with respect to the Project.

This Addendum modifies applicable sections of the RFP. It is the responsibility of the Interested Party to ensure that all changes are incorporated into the original RFP.

Proposals submitted in advance of receipt of this Addendum will be returned upon request.

All documents distributed as part of this procurement are available at the public notice section of the NJMC website: <http://www.njmeadowlands.gov/public/notices.html>.
